# *Quick*Media USB Solutions
## *Hi-Speed USB 2.0*
# 7-Port Hub

The D-Link QuickMedia DUB-H7 2.0 is a Hi-Speed USB 2.0 7-port hub that is backward compatible with USB 1.0 and 1.1. The DUB-H7 allows connection of up to seven additional USB peripherals or devices to your USB ready PC or Mac.

Designed to provide quick and easy access, the D-Link DUB-H7 provides seven Type A USB downstream ports for connecting USB peripherals, devices, or other USB hubs. A single Type B upstream port connects the DUB-H7 to the host computer or another USB hub, enabling up to 127 devices to be connected by cascading multiple hubs.

Configured directly by the operating system, the D-Link DUB-H7 operates seamlessly with both Microsoft Windows™ and Apple Macintosh™ Operating Systems.

Diagnostic LEDs provide port status for each port and power status. The DUB-H7 includes an Installation Guide, a 6-foot Hi-Speed USB 2.0 certified A to B cable, and power adapter.

The DUB-H7 is backward compatible with USB 1.0 and USB 1.1, allowing you to connect all your existing USB peripherals and integrates easily in your existing network at home or in the office.

## SPECIFICATIONS

**Standards**
- USB Specification Version 2.0
- USB Specification Version 1.1
- USB Specification Version 1.0
- OHCI (Open Host Controller Interface)
- EHCI (Enhanced Host Controller Interface)

**Operating Systems**
- Mac OS X 10.1 and above with USB Support
- Microsoft Windows XP, Me, 2000, 98SE  with USB  Support

**Supplied Current**
Self-Powered Mode: 500mA per port

**Ports**
- One upstream USB Type B Port
- Seven downstream USB Type A Ports

**Dimensions**
99.6 mm x 59.5 mm x 25.7 mm

**Connectivity**
Up to 127 devices by cascading multiple hubs

**LEDs**
- Self Powered
- Port Status

**Operating Temperature**
0°C to 40°C

**Storage Temperature**
0 to 95%, non-condensing

**Humidity**
5% to 95%, non-condensing

**Power Requirements**
Self Powered 12.6W, 3A @ 5 VDC

**Power supply**
Output 5V 3A

**Compliances**
CE, FCC Class B, VCCI, UL

**Warranty**
1 Year

The DUB-H7 performs up to 40 times faster than USB 1.1 by utilizing the 480Mbps[1] throughput speed of Hi-Speed USB 2.0.
